Total Expense Ratio Definition: Total Expense Ratio (TER) expresses the expense ratio for a sub-fund or a type of share against the average NAV (of the sub-fund or unit respectively) over a given period in the past. The TER should reflect the past record, and should not be an estimate for the present or future. In other words, the TER is the annual percentage reduction in investor returns that would result from operating costs if markets were to remain flat and the fund's portfolio were to be held and not traded during a period.
